### Court Receives Case Initiation Filing—Mental Health (INI819)

#### Exchange Description

A trial court uses this California judicial branch XML schema-based data exchange to receive mental health case initiation filing documents from an integration partner.

Integration partners may use this data exchange:

- When they submit a Certification case on behalf of a client.
- When they submit a Lanterman Petris Short (LPS) Conservatorship case on behalf of a client.

The request message sent by an integration partner to the trial court contains the mental health case initiation information (e.g., participants, filing documents, and filed by/refers to identifier).

The response message from the trial court to the integration partner contains delivery confirmation data with status information (e.g., “Received”), along with contents of the original request message sent by the integration partner to the trial court.

#### Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange, as follows:

- Court Sends Case Initiation Filing—Mental Health Confirmation Notification (INI935), which confirms that the initial filing successfully passed the clerk review (CR) process and contains the new case filing information.
- Court Sends Clerk Review Rejection Notification (EFL902), which contains rejection information in response to the court clerk’s review of the initial filing.
